**Sarunyoo Leelertyuth 6310422023**

# Topic: Online Learning

# Empathize

01

## Name:

K'Thontanvaroj

02

## Profile:

Age: 35 – 40

Graduated: Accounting &  
Marketing

Occupation: Data Scientist

03

## Lifestyle

Love cats, Exercise

Work late hours sometimes,

Don't like wake up early in weekend or Holiday

# Define

## User Description

Online studying lead to less interaction with friends or teacher and less concentration for studying

## User's need

Need to find the way to meet friends that can build a good connection and interaction

## User's insight

Because online studying help to reduce travel time, no need to wake up early or watching video record. But can't meeting friends (lots of work, free time don't match, fear of COVID-19)

# Ideate

# Prototype

**Project Prototype**

**AI Hologram for  
Meeting & Studying**

**How this project  
help us:**

**Study & Hobby  
Activities**

- Study & Seminar
- Brainstorm & Group Project
- Online Party
- Dining together

**Schedule Your Life**

- Schedule your life by AI which know all your activities and find when you have a free time for meeting your friends

**Create Environment**

- Can be create the environment by AI to choose viewscape and melody for create good atmosphere

**Matching Interest Field**

- Matching your interesting field to grouping your friends and make a meeting

# Test

## Like:

- Reduce the travel time
- Can wake up late
- Meeting friends that not fear about COVID-19
- Have concentrate more on meeting or studying

## Dislike:

- Still cannot see friends by face-to-face

## Question:

- Cost of hologram equipment?
- Internet stability?

## Idea:

- Integrate AI to help the schedule of life and interest filed to make more connection.
